

ALTAIR DATA ANALYTICS ASSESSMENT

Altair's Data Analytics Assessment Service helps answer the tough questions:

- What data do I have?
- Can it be leveraged for analytics?
- What other data do I need and how do I get it?
- What ML technology can be used with my available data?
- How do I get started?

Analytics Assessments leverage Altair Data Analytics platform and provide recommendations on how to leverage analytics. Deliverables include documentation of current state, desired future state, gap analysis and roadmap.

Delivery of Assessment Service

Step	Typical Duration*	Client Resources	General Information
Project Planning and Kickoff	0.5 day	IT/Business Resources	Remote discussion
Business Assessment	1-2 Days	IT/Business Resources	Understand customer business & requirements
